## Bodger's Unrivalled Flower Seeds

"STOCK FLOWERED LARKSPUR" IS BECOMING EXTREMELY  
POPULAR FOR CUT FLOWERS

ZINNIA—BODGER'S GOLD MEDAL DAHLIA-FLOWERED  
ALL PASTEL SHADES

*A* RECENT award placed to the credit of the Dahlia Flowered Zinnia is the silver medal which Messrs. Dobbie & Company, Edinburgh, Scotland, report they received from the Royal Horticultural Society at London, England, for an exhibit of these popular flowers. Due to the unfavorable weather this year they considered themselves fortunate in getting such a good display. The following is an excerpt from the London Times as of August 17th, 1927.

*After the gladioli, perhaps the exhibit which attracted more attention than any other was a fine display of about a dozen varieties of Bodger's strain of Dahlia-flowered Zinnias, shown by Messrs. Dobbie & Company. Many of the flowers were between five and six inches in diameter, borne on stout stems, and the colors were most attractive. Some of the best varieties were "Oriole" (Golden Yellow with orange-scarlet centre) "Illumination" (rich carmine), and "Dream" (mauve).*

The Dahlia-flowered Zinnia received its first recognition by the Royal Horticultural Society in 1924 when it was granted an Award of Merit for the strain and a Gold Medal for the group exhibited at the London show of the Society. We look upon Messrs. Dobbie's achievement this year as an assurance that this novelty is maintaining its place among worthwhile strains.

ASTERS—LATE BEAUTY PURPLE

## ASTERS

### IMPROVED STRAINS

**ASTER, CALIFORNIA GIANT DOUBLE**—We take pleasure in recommending this type as the best Aster on the market today. Characterized by the well-known Crego or Ostrich Feather type of flower, combined with the Beauty Aster's long, non-lateral branching stems and sturdy habit of growth, the California Giant Double type of Aster stands at the head of the list, not only for florists' use, but also for private gardens where quality is appreciated. Careful selection has not only perfected this type but has enabled us to extend the color range. The White is exceptionally large and distinctive. Peach Blossom opens as a white and darkens as it ages, so that it covers a large range of colors. Light Blue is an exceptionally fine florists' flower; the color, although delicate, has a sufficient degree of intensity to please the most critical eye. Rose is a very rich deep shade, similar to Aster Beauty Bright Rose. The favored florists' colors are thus fully represented.

Our predictions as published earlier have proven to be well founded. The flood of orders coming in recently is good evidence that this Aster has made a hit. We have an increased acreage which looks promising and are in hopes of filling the demand, but we urge you to send in orders as early as possible to avoid disappointment.

	Per oz.	Per ¼ lb.	Per lb.

Deep Rose .....	1.50	4.00	15.00
Dark Purple .....	1.50	4.00	15.00
Mixture of above.....	1.00	3.50	12.00

**ASTER, CALIFORNIA GIANT SINGLE**—We are offering this wonderful Aster for the first time this year. It was developed out of the California Giant Double type. The flowers are large, measuring three to four inches across, with stems 18 to 24 inches in length. The petal has a slight twist, which adds a piquant touch to its beauty. The white blossoms resemble Shasta Daisies in appearance, but their greater length of stem makes them more graceful and better adapted to florists' use. In the garden, Aster California Giant Single adds a charming note of simplicity, among the fuller types of Asters. We believe this new, single type of Aster is destined to become very popular.

At present we are offering it in a well-balanced mixture.

	Per oz.	Per ¼ lb.	Per lb.
Finest Mixed .....	1.00	3.50	12.00

**ASTER, IMPROVED CREGO, CATTLEYA**—Here we offer a distinct and attractive color in the improved Crego type. The flower opens up a beautiful shade of the popular orchid color. We consider this a worthy addition to the list and one which will appeal to all flower growers.

	Per oz.	Per ¼ lb.	Per lb.
Cattleya .....	.75	2.00	6.00

#### LATE BEAUTY TYPE

Plants about 2 to 3 feet high, of branching habit, commencing to bloom in early September and lasting until destroyed by frost. Flowers large, borne on long and stout stems, from 18 to 24 inches. This applies to all of the Beauty Class, making them most desirable for cut flowers.

Finest Mixed .....	.75	2.50	8.00

#### EARLY BEAUTY TYPE

This type has all of the characteristics of the Late Beauty Type, and is valuable for locations where the season is too late to flower the late type before frost, and for early forcing.

We wish to emphasize, however, that this is not an Early Aster as compared with Early Express or Queen of the Market, but earlier than the late Beauty Type which is the latest of all Asters. Planted at the same time this type flowers with the Crego and American Branching.

ZINNIA, DAHLIA FLOWERED ORIOLE

## ZINNIAS

### BODGER'S GOLD MEDAL DAHLIA FLOWERED

In July, 1924, the Royal Horticultural Society of England granted an "Award of Merit" for the strain, and a **Gold Medal** for the group of Dahlia Flowered Zinnias exhibited in the London Show. This official recognition of the strain meant much to its originator, our late president, John Bodger, who had put forth the best efforts of his last years in perfecting this type. In 1925 this novelty was granted two more awards of merit.

The large size, fullness of petals, extraordinary color range, and good keeping qualities of this flower have all contributed to its popularity. It is easily grown, and keeps well when cut. It is at present immune from disease. Equally good as a garden flower and as a florist's specialty, its popularity should increase with years. It has been truthfully called "A NEW FLOWER FOR THE PEOPLE."

#### A Florist's Moneymaker

This type is proving a good forcer among the florists. Polar Bear is forced and used extensively as a bunching flower for Mother's Day, while Exquisite, Old Rose, Golden State, Crimson Monarch and Canary Bird are specially recommended to force as desirable colors for florists for early spring trade.

To assist in visualizing the true color, we have inserted, parenthetically, Ridgeway's Color Chart descriptions.

We offer all varieties as follows, and we are very pleased to advise that these separate colors are showing a marked improvement as to type, and trueness to color as a result of our constant vigilance in

	Per oz.	Per ¼ lb.	Per lb.
our experimental grounds...	1.50	4.00	15.00

**EXQUISITE**—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose.)

**OLD ROSE**—This is adequately described by its name, as it is of the real Old Rose Shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.

**ILLUMINATION**—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose).

**GOLDEN STATE**—A very rich orange yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.

**CRIMSON MONARCH**—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.

**GIANT ATTRACTION**—A distinct shade of brick red (Spectrum Red) which carries its color well from the bud, and forms into an immense ball of color when in full bloom.

**SCARLET FLAME**—A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.

**METEOR**—A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with good depth of petal. Very large and more floriferous than other reds.

**LEMON BEAUTY**—This is next to Crimson Monarch in size and form. It may be described as a golden yellow on brown. Decidedly a pastel shade, and should be in every collection.

**ORIOLE**—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.

**DREAM**—A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias.

**PURPLE PRINCE**—A fine, deep purple (Rhodanthe Purple) large and well-formed.

**POLAR BEAR**—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.

**BUTTERCUP**—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.

**CANARY BIRD**—A delicate shade of primrose—very large and holds its color well until out of bloom.

### SPECIAL GOLD MEDAL MIXTURE—

	Per oz.	Per ¼ lb.	Per lb.
A well blended mixture containing all the above novelties.....	1.25	3.00	10.00
<b>ALL COLORS MIXED</b> —While this mixture may not contain such a variety of colors as the Special Mixture, its color range is very good; it has been thoroughly rogued in the field for type and size of flower .....	0.85	2.00	6.00

**NOTE**—Bodger's Dahlia Flowered Zinnias are all true pastel shades which makes them distinct from the ordinary giant Zinnias.

### PICOTEE TYPE

The Picotee Zinnia, introduced by us in 1919, differs from other types in that each petal is outlined by a contrasting color which harmonizes with the body of the flower. The form and color range are similar to the Giant type, but the size is between the Giant and Pumila types. They are useful to provide variety in that portion of the garden devoted to Zinnias, but they are especially adapted for use as cut flowers. They reproduce about 70% true.

	Per ¼ lb.	Per lb.

Achievement, Mixed .....	2.50	8.00

BODGER'S DOUBLE GIANT ZINNIAS

# BODGER'S UNRIVALLED FLOWER SEEDS

## ZINNIAS—Continued

### GIANT MAMMOTH TYPE

The Giant Mammoth Zinnia has smaller centers and more loosely placed petals than the old Giant type, thus presenting a pleasing appearance. The size of the flower has been notably increased over the Giant Plenissima. The petals are decidedly imbricated and the flower from bud to bloom assumes a succession of graceful forms.

The Giant Zinnias have often been referred to as stiff and unattractive. The introduction of this fast growing, flat type of flower is rapidly eliminating this fault.

	Per ¼ lb.	Per lb.

Sanvitalia Procumbens (creeping zinnia)...	1.75	6.00

We have devoted fifteen years to the improvement of existing types of Zinnias, and the originating of new and popular types; such as, PICOTEE, VICTORY QUILLED and DAHLIA FLOWERED. The rapidly increasing demand for these improved types will necessitate our planting over three hundred acres this year.

Bodger's Zinnia Seed will assure you satisfaction. The discriminating buyer knows that the best is always the cheapest in the end.

## Mammoth Early Branching Nice

This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use.

If sown early, they come into flower as early as Dwarf Ten Week varieties; the flowers are larger, and the branching habit renders them invaluable for florists.

TERMS: F. O. B. California Terminal; flower and vegetable seeds, 60 days net or 2 per cent discount for cash within 30 days from date of invoice.

NON-WARRANTY. We exercise the greatest care in growing and harvesting our seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and sending out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither growth, description nor productiveness of any seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the seeds we grow.

If our goods are not accepted on these terms, we should be notified at once.
